

# *Arrow/Bolt Alteration Playtest v1.0*

*Updated April 17, 2018*

*Authored By Ian Petley, Jerry Boyd and Nick Denny*

*Approved By Joseph Valenti*

## **Objective:**

To cut down on the tag requires of PCs in order to use Archery.

## **Summary:**

In order to use a Bow/Crossbow, arrow/bolt tags are no longer required. As this is a playtest and not a rules change, arrows/bolts tags may still be used, however now give the weapon +1 damage when used.

Note: The number of arrow packets on you at the start of a module is the max number of arrows you can use during that module regardless if you have tags or not. This playtest does not grant archers unlimited arrows.
